Hi Fran - You have the most current version.

Hi Steve. I brought the upper Animas Web page home with me to work on. I have the version that Cynthia gave Bill C., and he has done some reformatting, etc., before passing it on for my review. I'm now somewhat confused if there is more than one version going around. Do you know if you all commented on it before or after it went to Bill? Did you comment on it this week or prior to this week? If you reviewed it this week, then I don't have the right version.

Remember that the process we agreed to is that I comment after Bill has done his reformatting, and cleanup, so hopefully I am not dealing with typos, improper capitalization, etc.

So, please let me know if you think I have the version that everyone has already commented on or if I have an older version. Thanks.

Fran

Hi Fran - I know you're getting ready for the radiation conference next week, but I need to follow-up with you on the Upper Animas website. Cynthia let me know that she forwarded the text of the site to you, and she is awaiting your response prior to giving Bill C. the green light.

I reviewed and provided comments to Cynthia, as did Richard Sisk and Paula.

Please let me know when you think you will get back to Cynthia on this. It's becoming more urgent that we have a site on which to post information for the community.

Thanks,

Steve
